

WHAT THE PAPERS SAY.

Informal Reception.

Governor Ledyard's little informal reception at the "executive mansion" have already placed his excellency in the list of jolly good fellows which nobody can deny.—Hartford Post.

A Long and Laborious Job.

In introducing Mr. Taft at Charleston, Editor Henshaw referred to the fact that the former was engaged in newspaper work in Cincinnati something like 24 or 30 years ago. Mr. Taft answered that it had been a long and laborious job to make a president out of a newspaper reporter.—Waterbury American.

What We Are Likely to Have.

One of these days congress will do something really worth while, and the entire country will have the lapsed.—Toledo Blade.

Eggs, Not Eloquence, Wanted.

The Boston Globe says a farmer down here in Beacon Falls has a white hen that says "Hello!" like a well-trained parrot, and says "What is wanted from the American hen, however, is eggs, not eloquence." Some people have no soul for art.

Also His Valedictory.

In charity let it be remembered that Mr. Willett is a new comer to congress. It was only the gentleman's inaugural bowl.—Pittsburg Gazette Times.

Willing to Stake It.

Mr. Taft's declaration that he "didn't hope to win the south" doubtless caused a momentary feeling of disappointment among the poker-playing colonials.—Chicago Inter-Ocean.

Test of Heroism.

When two men will cheerfully lay down their lives for a woman only one will carry her a scuffle of coal.—Manchester Union.

A dish of warm water on the radiator will improve the air in a steam-heated room.

"Dignity Is What We Use To Conceal Our Ignorance"

is Elbert Hubbard's definition of the word dignity. Unquestionably Elbert is correct, and every thinking person will agree with him. Think of the people with dignity and count those having it naturally. He who has it naturally, combined with ability, is a great success in life. Those with assumed dignity are well, they are understood and discounted by the public. We've to dignity, natural or assumed, and if it is used as a temptation by the public would discount it. Let the public estimate us correctly, give us credit for a thorough knowledge of the photograph business; for doing work at reasonable prices. Years of experience in this business exclusively entitles us to it.

To Build Pole Line to Potter Hill and Ashaway—Robert M. Freestone Establishes Record Among Guardsmen—R. F. Liver Clark's Prompt Service—Capt. James Ryley of Mystic Fatally Injured at Philadelphia.

Senator W. M. P. Bowen has introduced in the state senate a measure legislating out of office the clerks of the Second, Third, Fifth and Ninth districts, and another providing for the re-establishment of these offices, with a tenure of office clause. It is stated that the object of the measure was to fix a term of office of three years for the clerks of these courts, the same as that of the clerks of other districts. When the act creating the positions of clerks of these courts were passed no tenure of office was established and the clerks have rightly considered that they were in office for life.

It is explained that this measure was to carry into effect and that after that time the commission which has charge of the revision of legislation would cover the ground. This measure is to have the elective system start now, instead of waiting for the commission to arrange for it. The present incumbents will probably all be re-elected, except Thomas J. Johnson, a democrat, who was named by Governor Higgins after the death of Arthur W. Joyce.

Mr. Taft's declaration that he "didn't hope to win the south" doubtless caused a momentary feeling of disappointment among the poker-playing colonials.—Chicago Inter-Ocean.

General orders relative to the annual inspection of the various commands of the Rhode Island National Guard have been issued from the office of the adjutant general, and includes the state armories and all military properties of the state. The inspection will be made by the brigade commander and assistant adjutant general with the aid of the inspector general. The date set for the inspection of the 17th company, Coast Artillery corps, and the state armory in Westerly is Monday, March 15.

The government inspectors, under the provisions of the national militia law, will take place upon the same dates as the army inspectors. Maj. Charles W. Abbott, Jr., U. S. A., retired, has been detailed by the commander of the militia division to make these inspections.

Robert M. Freestone, a member of the Fifth company, Westerly Coast Artillery corps, has a record that is probably not equaled by any national guardsman. He has been a member of the company for six years and during that period has attended every meeting and drill. Mr. Freestone is interested in the welfare of the command and his example is worthy of emulation. This perfect attendance was purely voluntary, as there is no compensation for such service in the militia. Special mention was made of Mr. Freestone's record at the company meeting of the company Tuesday evening.

Arthur Clark of Potter Hill, driver of rural free delivery route No. 1, from the Westerly postoffice, which includes the Quonochontaug Beach section, however, has a record that is worthy of emulation. He has been a member of the company for six years and during that period has attended every meeting and drill. Mr. Freestone is interested in the welfare of the command and his example is worthy of emulation. This perfect attendance was purely voluntary, as there is no compensation for such service in the militia. Special mention was made of Mr. Freestone's record at the company meeting of the company Tuesday evening.

There is a contest over the appointment of a medical examiner for the town of Charlton and Richmond. Dr. John W. Saunders of Richmond is the present incumbent. The representatives of the two towns in the general assembly have divided on the appointment. Dr. Herbert E. Rouse of Richmond being the opposing candidate. There are three physicians in the two towns, Dr. Milton Duckworth of Charlton and Drs. Saunders and Rouse. Dr. Duckworth is a member of the house and not a candidate for the position.

The Westerly Light and Power company, whose charter covers this section, and with franchise granted by the town of Westerly and Hopkinton, will commence next week to build a pole line from Westerly to Potter Hill and Ashaway. The people of these places have been anxious for electric light and power for a long time and the local company has been postponing action in the hope that arrangements could be made to use the poles of the new Ashaway and Westerly trolley road, now under twenty-five year lease to the Norwich and Westerly Railway company. As no agreement could be reached the electric light company will build an independent pole line along the regular highway to Potter Hill and Ashaway.

While the guaranteed patronage is far from paying interest in the investment, the Westerly Electric Light and Power company has faith in the growth of the places, especially since the introduction of the trolley road service, and will therefore arrange to give to the people of Potter Hill and Ashaway and residents along the line the same excellent service that is given Westerly.

The parlor of the Dixon house were prettily decorated Wednesday afternoon for the reception of Phoebe Greene Ward chapter, Daughters American Revolution, to Mrs. Charles Warren Lippitt of Providence, state regent, who was accompanied by other ladies, representing chapters of Rhode Island. The other guests of honor were Mrs. George N. Burdick of Westerly, state vice regent, and Miss Fannie Holmes of Westerly, state treasurer. A luncheon was given in the Dixon house by the state officers resident in Westerly and the reception proper was from 3 to 5 o'clock and was the most brilliant of the season. Daughters' auspices held in Westerly.

Capt. James Ryley, master of the large seagoing barge Bethayres, and well known resident of Mystic, was fatally injured by the parting of a hawser as the barge was leaving Philadelphia for Newburyport. An end of the hawser struck Captain Ryley and two sailors. The three men were taken to the hospital immediately after the accident Tuesday. Captain Ryley was injured in the abdomen and the surgeons decided that an operation was necessary and the captain failed to recover.

Thomas W. Ryley, his son, superintendent of the Groton and Stonington railway, left Westerly morning for Philadelphia and will accompany the body to Mystic, where the funeral services and burial will take place. Captain Ryley was formerly a master on the Mallory line and was in the employ of that company many years. He had a large acquaintance. Mr. Ryley was in his 55th year and is survived by Mrs. Ryley and son, Thomas W. Ryley, and two daughters, Mrs. Thomas Trevena and Mrs. Alexander Taylor. He leaves three sisters, Mrs. Charles Wheeler and Mrs. Elizabeth Barry of Providence.

Donahue and Miss Alice Donahue of Moss street were guests of Mrs. Homer Clark at Potter Hill Wednesday. The funeral of Patrick Brown was held with a requiem mass at the church of the Immaculate Conception. Rev. Peter McKeown celebrated. Wednesday. Some of the Westerly High school basketball players are appearing in new white coat sweaters with blue trimmings and a blue W in old English. The players are wearing the sweaters from whence the coat sweaters came, but it is expected the W. H. S. association presented them to the boys.

WESLEYAN UNIVERSITY. Experiments in the Eye Movements of the Insane—Events Booked.

Middletown, Conn., Jan. 26.—Dr. Raymond Dodge, professor of psychology at Wesleyan, has just published an account of some very unique experiments in the eye movements of the insane which he carried on during the past year in conjunction with Dr. R. R. Diefendorf, one of the most prominent alienists in this country. The treatise appears as a monograph of a prominent psychological magazine in London—Brain—and is entitled "An experimental study of ocular reactions of the insane, from photographic records. This is the first time in the history of experimental psychology that any efforts have been made in this direction, and the appearance of the data in regard to the experiments has aroused no small amount of commendatory criticism from the scientists of this country and England. J. F. Cowdrey, chairman of the senior ball committee, has chosen for his assistants, G. P. Gaine, G. B. Soule, R. E. Chamberlain, H. S. Griffin, W. E. Leighton, C. H. Sherwood and A. P. Harlow.
